## HITLER CANNOT STOP WARRING, SPEAKER SAYS

UNITED STATES NEXT ON LIST, FORMER GERMAN PROFESSOR TELLS FORUM

CENTERVILLE — "Hitler must continue to prevent the German people from learning that other peoples can live happily under a constitutional form of government, rather than a dictatorial, and to this end his propaganda bureaus have to keep grinding out their insidious falsities; his armies have to go on and on with their efforts at conquest and world-domination."

"... Hitler will not spare the United States if he succeeds in conquering Europe. . . . A nation which has raw materials but no industrial plants, like the Dutch East Indies is far worse off than Germany, which has the industrial organization but not the raw materials. Germany imports the latter and works them up into war materials."

"Russia, England and the United States have both raw materials and industries, which should finally give them the edge over Germany."

These trenchant remarks pointed up the address given Monday night in the Public Forum series at Washington High school auditorium by Professor Carl Landauer, former professor in the College of Commerce in Berlin, who spoke interestingly on the subject: I Saw Hitler Destroy Democracy.

The speaker who spoke feelingly from the German standpoint of the Germany which used to be, and who knows Germany intimately, traced out the many political and social factors which made Hitler's rise to power not only possible but inevitable.

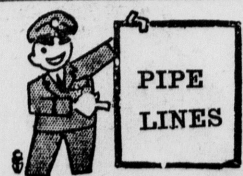

His very large audience detained him a full half hour after the conclusion of his formal address, asking him many questions pertinent to the world - scene today, Germany's possible position in it and the Democracies actual position in it.

The speaker was introduced by Forum Chairman Jack Rees, who conducted the question period following the address.

### SCHOOL HOLIDAY

Township schools were closed on Wednesday, Thursday and Friday of this week because of Teachers Institute, and for the Thanksgiving holiday. Classes resume as usual next Monday morning.

— Join the State Guard! —

By Ernie Frick

Howdy Folks; A scientist claims that man can live to be 150 years old but who wants to live that long and pay that many taxes.

We read about a school boy who was awarded a prize for being the champion swimmer in his school, but then he isn't old enough to pay taxes, yet.

One of our friends smiles all the time, now. We can't imagine what has gotten into him unless it's a new set of teeth.

We heard about a man who was held up on the way home. But what of it, we know some who can't get home any other way.

When you hear our customers telling about the wonderful value they get in our floor furnaces take a lesson from their experience. Try it too.

### COWS BROWSE

CENTERVILLE — Nine cows on their way to the slaughter house enjoyed Tuesday morning browsing on the young grass outside the Presbyterian church here when the truck in which they were riding turned over on the main street here. The driver, Ernest Hohner, 35 of San Leandro cramped his truck's wheel to avoid hitting a car which turned in front of him without an arm signal and the tumbrel containing the animals turned over. He secured another truck and gathered up the stray cows and proceeded to the abattoir.

## STATE GUARD CO. PREPARES BALL ON DECEMBER 6

FOUR MORE MEN SIGN UP MONDAY, BRINGING ENLISTMENT TO 41

CENTERVILLE — Four new recruits signed up with the Washington Township Provisional Rifle company following two hours of drill Monday night in the high school gymnasium with Corporal James Collins and Private First Class Jesse Johnston, both of Newark, in charge of drill.

The new men, who now bring the enrollment up to 41 men, with 34 more still to be enlisted, are as follows:

Melvin V. Nunes, Centerville.  
Norman Collins, Niles.  
S. D. Peterson, Newark.  
Ed Bismiller, Newark.

After the drill some of the men made returns on tickets already sold to the State Guard benefit ball to be held December 6 in the Newark Pavilion. One soldier turned in the proceeds of 19 tickets sold, and secured more tickets. Dance Chairman Raymond Peterson is in charge of tickets and he has appointed Walter Waymle to serve as treasurer of the dance finances.

The Clinton Harmonians of Hayward have been engaged to provide their ever-popular music, and J. E. Pashote, Newark businessman and a member of the Pavilion board of directors has kindly donated the use of his loud-speaker that evening.

Chairman Peterson on Monday mailed blocks of tickets and letters of transmittal to 30 Township civic, service, welfare and fraternal organizations, with the request that they and their members assist in the advance sale of tickets and plan to attend themselves.

The net proceeds of the dance will be devoted entirely to providing regulation State uniforms for the 41 men now signed up with the Township's own State Guard company — as far as finances permit. These uniforms with the Monterey jackets which are required in winter weather, cost about \$11 per man so the sum of \$451 will be required to outfit the entire company — which is a mark to shoot at!

One hundred posters have been distributed throughout the Township, 1,000 tickets have been printed; there is no conflict with other events of Township interest scheduled for the same night, and it is earnestly hoped the citizens of our Township and their friends will support the forthcoming benefit ball as fully as possible, representing as it does one of Washington Township's principal national defense undertakings.

### DR. GRAU'S CLINIC OPENED MONDAY

The fine new streamlined emergency hospital and office just completed by Contractor E. E. Dias for Dr. E. C. Grau at the west end of Niles main street was out-fitted with the doctor's equipment on Saturday and Sunday, and opened for business Monday morning.

The street sign outside his old office on G Street will still be lighted at night, but will direct emergency patients to his new office building around the corner.

The modern facilities of the new hospital will prove to be an asset to residents of Southern Alameda County.

The first cable car started climbing San Francisco's hills in 1873.

## Jump, Johnnie, Jump!

IMPATIENTLY looking forward to the day when they will be able to reconquer their homeland from the German invaders, thousands of Belgians are hard at training "somewhere in England," side by side with volunteers from the eight other Allied nations whose headquarters are now in the British Isles. The fellow on the right looks as though he enjoyed the exercise, but maybe he is just thinking about supper back in the barracks.

## TRUCK OWNERS URGED TO RETURN QUESTIONNAIRES

SACRAMENTO — James M. Carter, Director of Motor Vehicles, announced today he had been notified that immediate completion of the truck and bus inventory now under way might result in modification of the original priority rating given highway replacement requirements by the Office of Production Management.

Inventory returns from the 500-000 questionnaires sent to truck and bus owners throughout the state are now about 50 per cent complete, Carter said. To speed returns, approximately 100,000 letters have been sent to owners whose cards have not yet been returned.

Because of the necessity of obtaining adequate equipment replacements every truck and bus owner has a personal interest in the success of the inventory, Carter said. The OPM already has issued a priority rating for production of medium and heavy trucks and replacement parts but it is not the highest rating under the federal priority system, being the same as that assigned to the production of rail freight cars.

In issuing this rating the OPM was guided by the best available information on highway transportation and its replacement requirements. It may be modified, Carter said, when a more accurate picture of the trucking industry is obtained from the inventory.

Every truck owner was urged to fill out and return the questionnaire sent him that his equipment may be included in the survey.

### SEVENTEEN BOYS SIGN UP WITH NILES CUB PACK

Seventeen local boys signed up at the recent reorganization meeting for a Niles Cub pack held an evening last week with Warren Jones serving as Cub Master assisted by Jack Parry, Mr. George C. Roeding Jr. is chairman of the Cub Committee which is sponsored by the Niles Parent Teachers association.

Den Chiefs and a schedule of meetings are to be chosen by the cub members themselves. Both Jones and Parry have completed their leadership training courses at the Oakland headquarters.

### NILES ROTARIANS TO TURN ON "GLAMOUR"

The Niles Rotary club members will hie with their ladies to Rancho Hacienda-da this Saturday night to enjoy a state dinner in "El Comedor Grande" the Hearst's former formal dining room, followed by hoof-shaking in the adjacent Cock-tail Corral. Dr. T. C. Wilson will matador the festival at which 100 members and guests are expected. The whether forecast is "wet."

### RURAL AUTOMOBILES

Farms and towns under 2500 population have more than 40 per cent of the total motor vehicle registration in the United States according to the California State Automobile Association.

## HIGHWAY DIVISION ADVERTISES FOR FLOOD JOB BIDS

The State Division of Highways is advertising on page seven in this issue for bids for constructing the long-sought flood drainage system for Niles, which originates on Highway 17, crosses under the Southern Pacific tracks, follows along H street and dumps into Alameda Creek on the Shinn property.

Both of the Niles Chambers of Commerce have been at work for more than a year trying to get action on this project, the need for which was made evident during a siege of heavy rains last winter when the business houses and some residences at the west end of Niles were damaged by drainage waters.

The notice to contractors states that a priority rating of A-4 has been assigned to the project so that materials can be obtained "prior to June 30, 1942." However, the bids are to be opened on December 10 in the Public Works Building at Sacramento, so it is to be hoped actual construction can begin this winter, and that the project can be finished in time to take care of the usual run-off waters from our regular late winter and early spring rains.

## DANGEROUS CURVE ON HIGHWAY 17 IS RESURFACED

The dangerous curve on Highway 17 opposite the Associated Oil company's office at Niles will be re-surfaced with some coarse, binding material to prevent skidding during wet weather, Joe Mannix, road foreman here told a member of the Niles Chamber of Commerce.

This good news was reported at the Monday luncheon meeting of the Niles Chamber held in the City of Florence Restaurant with Vice President E. E. Dias presiding. Eight members were present.

The resurfacing job was completed during the clear weather of Tuesday, and should serve to prevent future accidents due to skidding, from occurring at that point.

## TWO DAY STRIKE AT PACIFIC STEEL ENDS AMICABLY

A brief strike occurred Friday and Saturday at the Pacific States Steel corporation's big plant near Niles and picketing was resorted to Friday morning, after 40 men were temporarily let out, allegedly in violation of a contract, when a large machine broke down Thursday afternoon.

Company officials and employees representatives conferred Friday and Saturday, a wage increase was granted, a new contract was signed allegedly outlawing strikes during the period of emergency and the men were at work again Monday morning.

Pacific States is working full hours on \$2,000,000 of defense orders for steel for the navy, and is said to be the only plant on the coast which can fabricate a certain type of special steel urgently required by the Navy.

### KILLED IN FALL

MOFFETT FIELD — John A. Carlson, 39, of El Cerrito, a close relative of Mrs. Harry Winters of Niles was killed Monday when he fell from a 50 foot wind tunnel on which he was working. He was operating an electric drill, which became stuck in some metal, whirled around and knocked him to the ground. Services were held at the Little Chapel of the Flowers in Berkeley. He is survived by his widow and a daughter.

## PEACE OFFICERS ARE GUESTS OF JAPANESE GROUP

SHERIFF GLEASON WARNS AGAINST PEOPLE JOINING OBSCURE ORGANIZATIONS

IRVINGTON — The Washington Chapter of the Japanese-American Citizens League held their meeting a night last week in Henry's Restaurant here with James Hirabayashi presiding. After the dinner and a short business meeting the group adjourned to the Irvington Grammar school auditorium where they were joined by a large delegation from the Eden Chapter to receive Sheriff H. P. Gleason, a corps of deputies and other peace officers.

The sheriff warned his hearers to avoid joining high-sounding but obscure organizations until their purpose and character were fully understood, and urged the Japanese-American citizens to enroll with the authorizing County Civilian Defense activities, now being administered by proper authorities.

He warned again against citizens taking sleuthing or other investigating into their own hands, urging them to report anything of a suspicious nature to the police or to the F. B. I.

A demonstration of the two-way radio work of the Sheriff's office and the California State Highway Patrol was given with members of the audience as passengers in the patrol car which toured the Irvington district with a two-way conversation with C. B. McMurphy, chief radio technician for the Sheriff's office present at the meeting.

A dinner at Henry's Restaurant preceded the program with Sheriff Gleason, McMurphy, Deputy Sheriff Henry Vervais, Sergeant Edward Doyle of the Highway Patrol, and Tom Silva Jr., as guests. Assisting in the radio demonstration were Deputy Sheriffs Alfren Ayres and Kenneth Mitchell.

Musical numbers were furnished by Eiko Egashira, vocalist, accompanist Nakagawa, president of the panied by Tsuako Kataowa. F. Eden Township chapter, headed the visiting delegation. Also at the meeting were Principal Jack Prouty of the Irvington School, and Ernest Sabina, trustee of the Centerville School.

# Neighborhood NEWS

## FAMOUS ULSTER COUNTY GAZETTE ON DISPLAY HERE

Bill Cavanaugh has on display in the street window of his place of business at Niles this week a framed copy of the famous issue of the Ulster County Gazette which recorded the death of George Washington. The spacing material between the columns of type was ingeniously permitted to "ride up" and print, giving the effect of a mourning border around the several columns relating the death and funeral of the Father of Our Country.

About a century ago some one conceived the idea of re-creating the printer in the Atlantic producing this famous issue and his efforts have confused collectors ever since. The job of reproducing was so well done only experts can tell the original from the copy. Only half a dozen original copies are known to be in existence and they are exceedingly valuable.

Mr. Cavanaugh has written the state university library and other authorities to learn if his copy is an original or a reproduction. Even as a reproduction any copy of that famous early-day newspaper has value.

## CENTERVILLE SCHOOL NEWS

## CHRISTIAN SCIENCE CHURCHES

"Rejoice the soul of thy servant: for unto thee, O Lord, do I lift up my soul." These words from Psalms comprise the Golden Text to be used Sunday, November 23, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ Scientist, in Boston, Massachusetts. The subject of the Lesson-Sermon will be "Soul and Body."

Included among the Scriptural selections will be: "As the hart panteth after the water brooks, so panteth my soul after thee, O God. . . . Why art thou cast down, O my soul? and why are thou disquieted within me? hope thou in God: for I shall yet praise him, who is the health of my countenance, and my God." (Psalms 42: 1, 11).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Who ever is incompetent to explain Soul would be wise not to undertake the explanation of body. Life is, always has been, and ever will be independent of matter; for Life is God, and man is the idea of God, not formed materially but spiritually, and not subject to decay and dust." (p. 200).

# Thanksgiving FOR TIRED EYES

Surprise the young student in your home with a new I. E. S. Study Lamp. He'll be thankful!

Sewing and mending are eye-tiring. There will be giving of thanks from the lady of the house for a Better Sight Lamp.

It is the right season now to check up on empty sockets or wasteful dim lamps. Replace and refill burned out lamps with bright new bulbs.

Yes sir! November's the month when there is need for BETTER LIGHT!

These are "at home" days. The holiday season and the weather keep folk indoors. Is your home ready with bright and cheerful and comfortable lighting?

For instance, the big room in your home where the family and guests gather may need one of the new super floor lamps. When "full on" one of these lamps provides comforting cheerful light over a wide area.

Add some new lamps or fixtures in your home where the light does not satisfy your eyes. It costs so little to do this now.

### SOUVENIR OF P. P. I. E. BURNS TO GROUND

NEWARK — The Newark Fire Department was called out Friday afternoon to extinguish a fire at Pattersons ranch, located two miles north of Newark. When the department arrived it was too late to save any portion of the building, although they did see that no other building nearby caught fire. The Centerville Fire Department also responded, but neither department used a drop of water.

Completely destroyed was a Japanese building that was brought over here from the 1915 World Fair in San Francisco by Mr. Patterson. The building had never been completed, and there was no furniture or electric wiring in it. The fire was alleged to have started by an itinerant. Mr. Patterson told Chief Pashote of the Newark Department that there was no insurance on the building.

Peter Petersen of Newark, Glenn Jones, Howard and Michael Overacker of Mission San Jose spent Sunday pheasant hunting at Knights Landing.

### DISCUSSION GROUP AT DECOTO GAINS TWO NEW MEMBERS

DECOTO — The Decoto Discussion Group met at the residence of Mrs. Elsa Walker for its regular meeting, Friday, November 7, at noon. The room was decorated in the autumn motif and the table centerpiece was of autumn leaves and Mexican sunflowers. A dessert course was served by the hostess, assisted by Mrs. Ethel Avilla.

Mrs. Charles Brown led the discussion of the book They Came to a River as a type of historical novel. The discussion was most stimulating and lasted one hour and thirty minutes. Other features of the program were a most clever and amusing talk by Mrs. Frances Mara on the subject: The effect of modern advertising on the nerves, and the quiz conducted by Mrs. Peggy Whipple, which proved too difficult for any perfect scores.

Mrs. Margery Clark, a former member who has moved to San Leandro was a surprise guest and was most heartily welcomed. Her decision to retain her membership and her kind invitation to the Group to meet with her at her new home in San Leandro in December were very much appreciated.

The next meeting will be in charge of Mrs. Dorothy Musick who has selected Pride and Prejudice by Jane Austin, as a type of the classic novel.

The group was fortunate in securing the membership of Mrs. Swenson and Mrs. Graves who were guests at this time. Mr. Swenson and Mr. Graves are members of the faculty of the Decoto school. Mrs. Dorothy Roberta, newly-appointed librarian of Alameda County was also a guest and by her active participation in the meeting contributed a great deal to its general interest.

# UNITED STATES NAVY NEEDS YOUNG MEN NOW!

## MEN 17 TO 50 WANTED FOR U. S. NAVAL RESERVE

TO BE KEPT ON ACTIVE  
DUTY ONLY FOR  
DURATION OF EMERGENCY

According to an announcement made this week in Washington by order of Secretary of the Navy Knox, "All men now enlisting in the Naval Reserve will be retained on active duty throughout the period of the national emergency, but they will be released to in active duty as soon after the emergency as their services can be spared, regardless of the length of time remaining in their enlistment."

Enlistment in the U. S. Naval Reserve is for four years but, if a man enlists today and the emergency ends within a period of several months, he will be returned to his civilian job as soon as possible after the emergency is over, and will not be required to complete his four year term in active service.

Four classes of service in the United States Naval Reserve need men urgently today. They are Class V-3, which includes radio and communications; V-5, aviation; V-6, for trade specialists or men desiring trade or vocational training; V-7, fleet officers. A more detailed outline of each class follows below:

Men with specialized training in radio, searchlight and semaphore signaling or Morse telegraphy may be enrolled in Class V-3, the communications class of the Naval Reserve. These men will be enlisted as petty officers with ratings according to their degrees of proficiency. Pay for men enrolling in this group ranges from \$60 a month for a petty officer third class to \$99 a month for a chief petty officer. An additional allow-

ance of \$1.15 per day is made for men with dependents who have the rating of petty officer second class or higher.

### — Naval Aviators

A man with at least two years of college education who desires to enter naval aviation will be enlisted as a seaman second class in Class V-5 of the Naval Reserve. After a month's preliminary training the V-5 recruit will become a naval aviation cadet and will be sent for advanced training to one of the three principal naval flight training centers: Pensacola, Fla.; Jacksonville, Fla., or Corpus Christi, Texas. On completion of this advanced course which requires approximately seven months the V-5 cadet will be designated as a naval aviator and will be commissioned as an ensign in the U. S. Naval Reserve.

During the first month of training, V-5 recruits are paid \$36. On completion of the first month's training the V-5 recruit is designated as a naval aviation cadet and will be paid \$75 a month, plus \$1 per day living expense. Upon commission as an ensign his pay will be increased to approximately \$245 a month and in addition he will receive regular pay bonuses of \$500 for each year he serves in active duty after the training period.

Class V-6 in the U. S. Naval Reserve offers opportunities for men with specialized training to continue their trades and at the same time serve their country. This group includes specialists of any kind such as electricians, carpenters, machinists, stenographers, accountants, plumbers, cooks, bakers, and many other trades and vocations. These men will upon enlistment be given ratings in accordance with the amount of previous specialized training they have had.

### — Apprentice Seamen

Men with no previous specialized training will be enlisted in Class V-6 as apprentice seamen with pay of \$21 a month. Directly following enlistment the new recruit will be sent to one of the four Naval Training Stations for a short period. At the Training Station the apprentice seaman will be given an aptitude test and if he passes this test successfully he will be sent to a Navy Trade School. Approximately 5500 men are admitted to Navy Trade Schools each month. This schooling valued at hundreds of dollars, is free and the seamen receive their regular Navy pay while receiving instructions.

Those applicants who do not pass their tests for admission to a Navy Trade school will be sent to duty aboard ship where an opportunity will be given them to train a trade. Four months after enlistment all non-specialized applicants in Class V-6 will be advanced automatically to seaman second class with a pay increase to \$36 a month.

Men with previous specialized training of any kind will be enlisted in the Naval Reserve Class V-6 with petty officer ratings and will be sent immediately to the ship or shore station where they are needed.

All applicants for the U. S. Naval Reserve must be native-born citizens of the United States with the exception of candidates for Class V-5 who must have been United States citizens for a period of at least ten years.

Detailed information with regard to enlistment in any class of the U. S. Naval Reserve may be secured by writing to or calling at your nearest regional Navy Recruiting Station in Oakland or San Jose.

A naval recruiting officer is on duty every Friday afternoon in the draft board office at Niles, where application should be made for information leading to enlistment.

You will find the NILES THEATRE program in this issue!

## MOVIE STAR JOINS U. S. NAVY

Ensign Wayne Morris Seeks Wings

Wayne Morris, recent star of "I Wanted Wings," became a member of Uncle Sam's Navy in May, 1941, when he was appointed to the rank of Ensign.

When asked what he thought of the United States Navy, Morris said, "I think every man who is considering joining a military service should look into the 'chance of a lifetime' which the Navy and Naval Reserve offer to get into the big-pay field of the future—aviation. In the Navy you can attend the finest flight training schools in the world, and receive in-

struction from Navy pilots who introduced dive bombing, aircraft carriers and catapult take-offs to the rest of the world. Also, there are opportunities in Naval Aviation for men who don't want to fly. They can be trained as aviation machinists, metalsmiths, photographers, observers, or they can receive instruction in many other trades. It's a great life in the Navy."

Ensign Wayne Morris is pictured here in his line of duty as a member of the Naval Aviation Cadet Selection Board at the Long Beach Naval Reserve Air Base.

## RED CROSS WORKS AT FIGHTING FRONT; MEMBERS WANTED

CENTERVILLE — On the night of October 16th the U. S. Destroyer Kearney, proceeding in the Atlantic, north of Iceland, was struck by a torpedo. Among the injured was Chief Boatswain's Mate Leonard Frontakowski. His life depended on the immediate arrival of blood plasma for an emergency transfusion. While another destroyer steamed to the side of the stricken Kearney, carrying a naval surgeon, a plane loaded with blood plasma donated by the Red Cross volunteers, took off from an undesignated Iceland air base. The dramatic story of how this plane dropped the precious plasma and how it saved the life of Leonard Frontakowski has been told in the columns of the nation's press. It is well however to stress that the Red Cross was on the job with traditional promptness. The needs of our sailors in their dangerous North Atlantic assignment was anticipated.

The Red Cross is appealing to the nation for support. This support is needed so vitally that Red Cross leaders are asking for a membership comparable to that of the first World War when more than 18 million adult Americans expressed their belief by becoming members. The Kearney catastrophe illustrates but one of the many dramatic ways in which the Red Cross is organizing its forces for the defense of our country. Quietly and without fanfare, the Red Cross is at work on the home front as well as the military front. Volunteers have undertaken scores of important responsibilities, of which the blood plasma program is but a single phase.

The Red Cross has started the job of helping the Army and Navy strengthen our defenses. Today your support is asked. So vital is

this challenge, we cannot afford to neglect it. I know that Washington Township will not fail to do its duty. We are many names short of our goal but there is still time for those who have neglected this patriotic duty, to enroll.

F. T. Dusterberry, Chairman, Washington Township.

## FORT ORD MEETS MOFFETT FIELD AT S. F. NOV. 23

SAN FRANCISCO — Fast football and the festive fanfare of military pageantry will climax Thanksgiving Week — the week of the Grand National Livestock Exposition — when Moffett Field meets Fort Ord at Kezar stadium, in San Francisco, Sunday, November 23. Former Bay Region gridiron "greats" will clash in a rough and tough football classic which will decide the Pacific Coast Army championship.

All the pomp and ceremony of military display will feature the event, which will be staged strictly for charity. Proceeds will go to the Christmas Fund of a San Francisco newspaper and for Fort Ord and Moffett Field Athletic and Recreation Funds.

With thousands of visitors from all parts of the West in San Francisco for the Grand National Livestock Exposition, Horse Show and Rodeo which comes to a close Saturday night, November 22, and with feeling running high between the two Army posts, Moffett Field and Fort Ord, the game is expected to make grid history in excitement and attendance.

## 400 CARD PLAYERS

CENTERVILLE — About 100 tables of whist were in play Tuesday night in the high school gymnasium when the Washington Township Sportsmen gave their annual turkey whist party. It was one of the largest of these parties given this year.

## NAVY INTELLIGENCE

What happens if a sailor in the U. S. Navy gets sick? There is a dispensary at every station manned by Medical Officers who give complete and efficient aid to anyone who is feeling ill.

Is there any insurance available to sailors in the United States Navy? Yes. Government insurance policies up to \$10,000 are available to enlisted men.

How does the U. S. Navy and the Naval Reserve decide what type of work a recruit is best fitted for? Before being assigned to duties, recruits are given the O'Rourke Classification Test which reveals their individual talents.

Who are the Staff Officers in the U. S. Navy? There are four staff officer corps in the Navy. They are: Medical Officers, Dental Officers, Supply Officers and Chaplains.

Is there such a thing as shore duty in the Navy? Yes, but in most instances men are not assigned to shore duty unless they have been in the Service for six (6) years.

What is the "Medal of Honor" that is given to sailors in the U. S. Navy? It is the highest individual award an enlisted man can receive. It is awarded by the President of the United States to the man who, in action involving actual conflict with the enemy, distinguishes himself conspicuously by gallantry and

intrepidity at the risk of his own life.

If I have some specialized training must I serve as an apprentice seaman if I enlist in the U. S. Naval Reserve? No. Any man with previous specialized training will be enlisted in a Special Naval Reserve Class and will receive petty officer's rating and pay.

Do seamen in the U. S. Naval Reserve receive the same pay as the seamen in the regular Navy? Yes, the men in the Naval Reserve receive the same pay, food, entertainment, free medical and dental care have the same opportunities for advancement and for training in skilled jobs as the seamen in the regular Navy.

Does the sailor in the U. S. Naval Reserve wear a different uniform from that worn by regular Navy sailors? No, there is no difference in the uniform worn by the Naval Reservists and that worn by the regular Navy seamen.

What are P. T. boats? P. T. designates the new type motor torpedo boats built in three experimental sizes, 59 feet, 81 feet, and 110 feet. These boats are capable of speeds in excess of 50 miles per hour and carry two or more torpedo tubes, depth charges, smoke-screen apparatus, and rapid fire anti-aircraft guns. These boats have not yet been incorporated into the fighting fleet in any great number.

## AAHMES SHRINE TO HOLD COLORFUL RECEPTION FRIDAY

OAKLAND — The Aahmes Shrine pageant, reception and grand ball this coming Friday evening, November 21st, at the Oakland Municipal Auditorium, will present a magnificent, majestic spectacle to thousands of Blue Lodge Masons, and their ladies, according to Arthur R. Anderson, general chairman, who reveals that an original exemplification of Arabian fantasy will be depicted in a setting of mystic splendor.

The program will start at 8:00 p. m., and will be preceded by a concert by Aahmes famous 55 piece band, directed by Herman Trutner, Jr.

"The beauty and brilliancy of the production 'Caravan to Mecca' will cause present day troubles to be forgotten," according to Anderson, who says that the exquisite stage settings, gorgeous costumes, kaleidoscopic coloring and more than a score of beautiful dancing girls will portray the past glory and grandeur of the far east."

## EMPLOYERS URGED TO FIND JOBS FOR RETURNED SOLDIERS

SACRAMENTO — Urging the cooperation of every employer in the State of California to see that every returning soldier has a job when he gets home, Brig. General Joseph O. Donovan, state director of selective service, today also announced that the Selective Service System will give the same assistance in finding jobs for men completing their terms of service in the Regular Army, Navy or Marine Corps as it does to its own selectees and members of the National Guard.

General Donovan pointed out that while the Selective Service System, with the cooperation of the War Department and the State Employment Office, has inaugurated a carefully studied and or-

## NEWARK BATMEN LOSE FIRST LEAGUE GAME

By: Gene Pashote

NEWARK — The Ramos Drug team of Hayward handed the Newark Sportsmen, Sunday at the Newark school grounds, their first shut out of the season and also their first loss in the Winter League of the Southern Alameda county division.

Pitcher Castro of the Druggists applied the whitewash with a generous flourish, yielding only two hits and setting down fifteen batsmen via the strike out route. His mates supported him in an effective manner both in the field and at bat.

Hayward's first run came in the second inning, on a base on balls, a sacrifice hit, and a clean single by first baseman Souza. The Druggists went on a rampage in the fifth inning when they brought their big bats into play and when the dust had settled five runners had scampered over the pay off station. This was also the fade-out for pitcher Stewart of the Sportsmen. Stanley Roderick, sensational pitcher several years for the United States Navy took up the pitching assignment in the fifth inning for the locals. He turned in a very workman like job, permitting but three hits and struck out eight batters. His fine pitching could not turn the tide as the Newark batsmen were helpless before the dazzling offerings of pitcher Castro.

The sportsmen's chances to score were as scarce as the proverbial hen's teeth. In the first inning Roderick whacked a rousing double to left field he was sacrificed to third by Soito, at which base he remained as neither of the following batters could provide the necessary hit.

The Druggist's stole the show and the headlines. Aside from Castro's brilliant pitching, short-stop Kelly of Hayward turned in a stop on Wood's hard grounder that was a hummer, he ranged far to his right, speared the ball back handed, and made the long throw from deep short to nail his man by a step.

Next Sunday the Newark Sportsmen journey to Lockwood at which place they cross bats with the strong Melrose Boosters.

## NILES LOCALS

## DOG POISONED

"Rowdy," the pet cocker spaniel owned by Mr. and Mrs. Harry Van Horn, Jr., at Niles was poisoned Tuesday while playing with other dogs on Jay street. When the dog became stiff his owner rushed him to a veterinarian in San Jose and had his stomach pumped out. Analysis showed the animal had been given meat poisoned with strychnine. The dog will live.

## CHRISTMAS SEALS GO ON SALE NEXT MONDAY

The 1941 Christmas Seal Sale to raise funds for the eradication of tuberculosis will open throughout Alameda County next Monday morning. On that day homes throughout Alameda County will receive their first Christmas greetings of the season when Uncle Sam's postman deliver letters containing sheets of the Seals and a plea to purchase them. Arthur H. Moore, county sale chairman, declared.

"The Alameda County Tuberculosis and Health Association is waging a ceaseless fight against tuberculosis," Moore declared. "Its valuable work is financed through the funds raised in the annual Seal Sales."

Moore pointed out that the fight being made against tuberculosis is a winning one. In Alameda County, he said, the tuberculosis death rate has declined 68 per cent since 1920. "Much remains to be done, however," he declared, "if Alameda county does its share in attaining the nationwide goal of no more tuberculosis by 1960."

Moore urged a prompt response to the letters containing the Christmas Seals as an important aid to the Sale committee in doing their job of filling the Alameda County quota.

## DR. MAX RADIN NEXT FORUM SPEAKER MONDAY

CENTERVILLE — Dr. Max Radin, famed Professor of Law at the University of California, will speak to next Monday's Forum on the topic "Civil Liberties and the Preparation for War."

Professor Radin, a world traveler and author of more than a hundred books, plays, and articles, is well qualified to speak on this pertinent topic. His talk will be the third in the current series on the general subject "Democracy at the Crossroads."

Dr. Radin is expected to suggest solutions for the following problems which face the nation: Should we restrict the right to strike? Must we limit "free speech" during this emergency? How may we prevent persecution of innocent racial minorities? What are these "Civil Liberties" we wish to defend?

The public is cordially invited to attend and participate in these patriotic Forums sponsored by the Evening High school.

These meetings are truly an American privilege in a world of censorship and repression.

The Forum begins promptly at 8 p. m. in the Washington Union High school auditorium. There is no admission.

## MANY GEESE SAID FEEDING IN MODESTO AREA

Wild geese are concentrating in the Modesto area, feeding on grain fields, the State Division of Fish and Game reports. Other waterfowl are flying high. Unattached hunters are procuring as many birds as the club hunters according to reports received by the division. Approximately 40,000 birds are reported resting on Buena Vista Lake.

The weather has been foggy and waterfowl hunting very slow in Alameda and Contra Costa Counties, yet local hunters are not coming home empty-handed. Ducks are reported coming into this area from the north but are staying out of the bays.

Although pheasants are very plentiful much of the best hunting land is posted.

### SO MUCH CASH ON HAND INDICATES UNEMPLOYMENT TAX SHOULD BE REDUCED

With a noted increase in employment throughout California, with a commensurate surplus in the unemployment insurance fund; AND with decreasing demands made on the fund due to lessening unemployment:

Officials at Sacramento announce the fund contains today more than TWO HUNDRED millions of dollars . . . and the revenues continue to roll in three times larger than disbursements now require!

Such a business! What does any state department want such an enormous cash reserve for, when outgo is constantly decreasing, and income is regularly increasing?

The exact figures are: total receipts since the fund was inaugurated on January 1, 1936: 375 MILLIONS of dollars, (which includes 12 millions of earned interest); total expenditures, 172 millions, leaving a cash balance as of November 11 of \$203,115,222.

And still the money pours in — for what? If ever a reduction in tax rate was needed, it is needed NOW on the amount of taxes paid by employers and employees into the state unemployment insurance fund.

Legislators please take notice! — W.W.

### AIN'T NO MORE . . . !

All this agitation for a 2-cent-a-gallon increase in the state gas tax to make possible a gigantic road building program will probably die without ever reaching the ballot or the Legislature. Reason: The materials for such a program just aren't available; Uncle Sam has requisitioned them for national defense jobs!

### CUT CALIFORNIA TAXES NOW!

The latest statement on California's financial condition from the office of State Director of Finance George Killian supports with facts the recommendation of an interim legislative committee that all state taxes be cut immediately and that Governor Olson call the Legislature into special session to that end. The Killian figures:

California's deficit last June 30 was \$32,000,000.

Estimated State revenue, 1941-'43, \$408,000,000.

Appropriations for 1941-'43, \$318,000,000.

Excess of revenue over appropriations, \$90,000,000.

Surplus on June 30, 1943, will be \$58,000,000.

In other words, unless State taxes are reduced, Californians will pay \$58,000,000 in taxes over and above all state needs, including wiping out of the deficit, between now and June 30, 1943 — while at the same time the extraordinary federal levies for defense and lend-lease costs will cut into the incomes of all Californians so deeply that the living standards of millions will be lowered! Both the President and Secretary Morgenthau have plainly forewarned that drastic tax increases must fall upon every American household.

Californians, with all Americans, realize they must pay for national defense in sweat and toil and privation, and they are patriotically willing to "take it." But it is a far different thing to extort tens of millions from California taxpayers in order to pile up an unexpected and unneeded surplus in the state treasury.

That special session of the Legislature should be called. The time to cut California State taxes is now!

People who are easy to sell are always in debt.

### SHOCKING

A group of 127 supposedly American congressmen voted AGAINST repeal of certain sections of the neutrality act last week, because the repeal movement bore a democratic label.

These 127 republican congressmen, who do not themselves have to face hostile gunfire at sea, voted AGAINST arming American merchantmen so the Americans who man them might have a chance to fight off hostile attacks and safely deliver American-made weapons to the fighting Allies.

These obstructionist representatives thus put narrow party lines above the welfare of American lives on American ships, even above the fighting Allies' all-out effort for survival.

This is WAR, gentlemen — and wars are not fought on party lines. We are all Americans now and no out-dated representatives are going to obstruct our efforts to win.

Republicans can be thankful for the little group of 22 Republican congressmen who did vote for repeal. Only 22 FOR the safety of our sailors; 127 AGAINST. This is an ugly record, gentlemen, and party lines should have been scrapped last year.

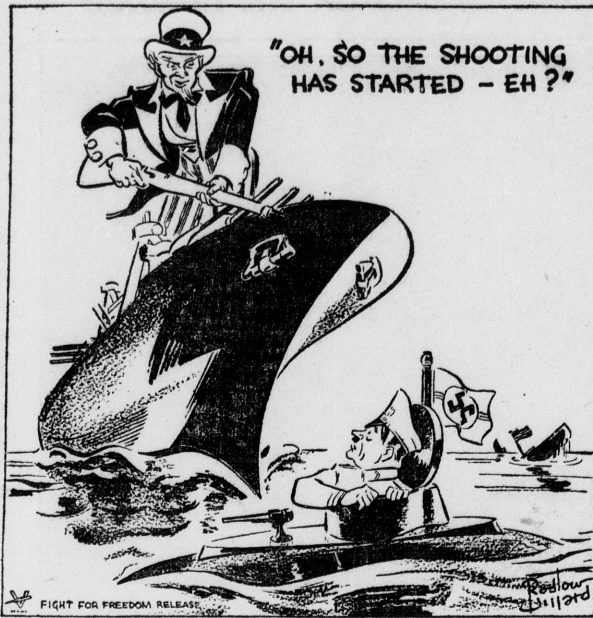

There will be a house-cleaning of congressmen next year, because at this time we must have ALL-AMERICAN congressmen, not party-label-wearers. America has a job of work to

### "FREE" AMERICANS??

Governor Olson, Secretary Sippy Ickes and even the President, in a statement issued from Hyde Park several weeks ago all advised San Franciscans how they should vote on the recent \$68 million bond issue for a city-owned power distribution system.

Olson went so far as to threaten in a public address in the municipal auditorium "he would fire any state employee who opposed the big bond issue."

Sounds like a nazi putsch. All that was lacking was a beer hall!

San Franciscans, still being free Americans with the sacred franchise of the secret ballot were so incensed at raw outsiders trying to tell them what to do that they DEFEATED the proposal for the eighth time, three to one. — After all its the San Franciscans who would pay the bills and use the power-to-be.

It is an unhappy picture when officialdom DIRECTS the private citizen how to vote. The President got burned once before when he said boldly how HE wanted OUR state to vote. Is this Free America or is it New Dealdom?

Save the sanctity of the secret ballot, Free Americans!

Any American who believes any of the lying words which proceed from Hitler's foul mouth is a little too soft to be safe. The initials of the "Official" German news agency D. N. B. mean: Do Not Believe. The nazi's homeland is called Germany because that is where the many germs come from.

### MAYBE "THE MEXICANS ARE COMING" ??

The increased tempo of the United States' gigantic re-armament effort, coupled with the stepped-up activity in organizing and training civilian groups for all sorts of defense work — "in case of invasion or uprising" — in the light of present circumstances, seems to border slightly on the hysterical.

So many factors are standing firm in their resistance to the nazis, and are serving to secure the safety of free civilizations, that America's gargantuan alarm is approaching the border of the fantastic.

The following factors may be added up on the side of security for the western hemisphere: Doughty England is stronger than she was a year ago, and is now honing for a fight; she has attained air parity with the Germans; the Atlantic sinkings have fallen off two-thirds this fall, since the American Navy joined forces with the British;

England has a million troops well entrenched in Iran and east of the Caucasus, to protect Suez, Singapore and India; the Free French in North Africa have not yielded to Vichy; the Chinese will never surrender to, nor negotiate with, the Japanese;

Moscow and Leningrad have not fallen, and doubtless will go safely through this winter; the Russians will never surrender to, nor negotiate with their "stab-in-the-back" enemies;

The South American nations, with Mexico and Central America, are definitely pro-Ally and have nazi influences well in hand; here in America, since the closing of Italian and German consulates you will notice any fifth column and dirty-shirt activities are conspicuous by their absence, so:

WHAT ARE WE WORRIED ABOUT?

The military stand is holding well against the damnazis. We have food, men and money in abundance; the Germans have not; even their own true military leaders are definitely anti-Hitler, and always have been;

General Mud and winter, starvation, pestilence AND revolt are all gathering their forces to work AGAINST the nazis and for free civilized peoples;

Granting that we should make guns, shells, ships and planes to aid all the Allies, and that it is a good thing to have more than a million men under arms in these United States to cope with any possible fifth-column uprising, or internal revolts: WHAT are the civilians organizing for?

Probably for the popular love of wearing uniforms and having imaginary places to go and imaginary things to do . .

Probably for the popular love of wearing uniforms and having imaginary places to go and imaginary things to do . .

Such activities are fun while they last, but unless the foreign picture changes considerably in favor of the nazis and against civilized nations, one cannot take civilian efforts at defense very seriously.

Who can invade us and where? The Japanese are no menace. If their sabre-rattlers want to start a war and it seems to do, they will have to take the initiative. And wherever they do: whether in Thailand, for a foothold against Indo-China; against Vladivostok or in Siberia; an unthinkable attack against Singapore or the Philippines . . wherever they make their attack, they will get slapped down, decisively.

For our part as civilians we might just as well fold our shiny play-uniforms, furl our banners and go to a football game. Christmas is coming . . let's enjoy it and give thanks that we here in God's Country can continue to go about our affairs quite as usual — and hope Congress does not go berserk with its tax programs. The breaks are all in our favor now and the future becomes increasingly brighter. The vast edifice that Hitler and his morons have created at the points of their bayonets will inevitably crack up like an avalanche, and sweep his and his'n to their doom. The nazis are traitors to everything good that the real Germany ever stood for and as such can expect no quarter either in the present war or in the future peace. — W.W.

### THE FOURTH HORSEMAN

Typhus fever, that rat-borne plague, deadliest killer of the ages, has risen in the wasted villages of poverty-stricken Spain, where sanitation has broken down and rats have come to live with listless men. The death wagons roll through dirty streets.

So doctors, rather than military men, have discovered why Hitler has failed to march into Spain to smash at Gibraltar and close the Mediterranean Sea to Britain's fleet. Hitler's legions of steel have no weapon to oppose the plague that dimmed the glory of Greece, swept away one-fourth of the population of Europe in the Dark Ages, came back from Moscow with Napoleon's shattered army to ravage France, and killed six million people in Russia and Serbia after World War I. Berlin as well as Paris is fearful of the plague that threatens to race northward through underfed, ill-clothed conquered countries — into Germany.

And I looked, and behold a pale horse: and his name that sat on him was Death, and Hell followed with him. And power was given unto them over the fourth part of the earth, to kill with the sword, and with hunger, and with death, and with the beasts of the earth. — Revelation, VI, 7.

Dr. Wm. B. Herms, University of California — "The people of the United States are now supporting more than 250,000,000 rats at an annual cost of from 50 cents to \$2 per rat."

The Japanese people surely must be getting tired of their militaristic diet. (They call their parliament their "diet".)

### BETTER SAVE THE WHOLE BODY

Japanese negotiations for peace in Washington broke down two months ago because they insisted on "saving face" by being permitted to maintain large air bases in China. . . When (and if) the Japanese face the business ends of American guns will they still be concerned only with saving their "faces" while the rest of their bodies are exposed and vulnerable?

Americans, happily, have sense enough to save their whole bodies, where possible. — The face goes along with the body. "Save the sur-FACE and you save all!"

Plans may be seen, and forms of proposal, bonds, contracts, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building

GLANCING  
PASSES . .

By: Your Editor.

**BOTTLENECK**—When the government stepped in to try and determine why goods were piling up undelivered for Britain imagine their astonishment to find the British purchasing commission itself was responsible for the hold-ups!

It seems that the commission, with its very small staff — after taking time out for tea every day was determined to inspect and pass each article built for Britain before it left this country!

Hmmm, hmmm. Thus providing a new high for bottle-necks.

Our government has since convinced the duty-struck commission that factory and army inspectors possibly could be trusted to do the same job satisfactorily for the well-meaning British civilians. . . and now the flood of weapons for Britain is rolling as fast as bottoms can be found.

For a prize example of officious officialdom this provides "one for

the book." (Yet how easy it is to find fault!)

—ww—

**SOFT** — Judging from the amount of unsolicited reports, clip sheets and picture services now being provided this newspaper covering the type and amount of various defense products being made and delivered, a lot of promoters have made themselves nice, soft berths wherein to make money and keep comfortable during the period of "the emergency."

Quite aside from the federal government itself, which weekly provides us with a high-powered summary of developments in the various departments at Washington, no less than FIVE private, newly-created picture services now convey to this newspaper every week pictures and news-stories of airplane manufacturing practice, aviation news, etc. etc.

Just WHAT does a country weekly editor do with this mass of information? The Washington syndicated columnists tell us each day all anyone needs to know about "the state of the nation" and the public reads, or can read, these daily summaries just as well as your editor.

Such duplication of effort and waste of materials is a caution, to say the least!

**REMEMBER?** — Remember the OARP?

That's a California made alphabetical agency simulating the all but forgotten Townsend Plan. The

Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco. The District Engineers' offices are located at Eureka, Redding, Marysville, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino, Bishop, Stockton, and San Diego.

A representative from the district office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character, and quantity of work to be done, with a representative of the Division of Highways. It is requested that arrangements for joint field inspection be made as far in advance as possible.

No bid will be received unless it is made on a blank form furnished by the State Highway Engineer. The special attention of prospective bidders is called to the "Proposal Requirements and Conditions" annexed to the blank form of proposal, for full directions as to bidding etc.

The Department of Public Works reserves the right to reject any or all bids.

**DEFENSE SAVINGS**  
BOND SALES SHOW  
RISE IN OCTOBER  
WASHINGTON, D. C. — Sales of Defense Savings Bonds increased 16.5 per cent in October over September, the Treasury Department announces. Total sales for the six months since the Defense Savings Program was launched on May 1 last are \$1,775,124,000.

Total cash deposits at the Treasury for all three series of Bonds by months: May, \$349,818,000; June, \$314,527,000; July, \$342,132,000; August, \$265,606,000; September, \$232,327,000; October, \$270,713,000.

More Series E Bonds were sold in October than in any month except July. October sales of this series showed an increase of 16.8 per cent over September. Total sales of Series E Bonds for the six months are \$694,132,000. Series F and G Bonds sales showed a 16.3 per cent rise over September.

**JOBS FOR EX-SOLDIERS**  
All returning California ex-soldiers, General Donovan said, are requested to get in touch with their local selective service board re-employment committeemen as soon as they return home. Meanwhile, he said, committeemen will have received complete data concerning these men, and their aptitudes for specialized work or labor. This information will likewise be in the hands of state employment offices which will cooperate with local board re-employment committeemen and California employers to "see that each man is placed in the job for which he is best fitted and most needed."

Townsend plan is not forgotten, however. Some few remaining groups still meet and dream of the day when old folks can be comfortably supported.

Until that day arrives, the worthy old people are not doing badly under federal and state welfare grants, up to a maximum of \$35 per month per person.

COUNTY HAS ITS  
SHARE OF TAX  
LEVYING AGENCIES

The people of Alameda County have at least 81 different governmental units to serve them, a survey of governmental units in California counties, just made public by California Taxpayers' Association, shows. In addition to the county government the association found, there are 10 incorporated cities in the county, 38 elementary school districts, 6 high school districts, 4 unified school districts and at least 22 special districts. The last figure is incomplete, the association stated, data for many types of special districts not being centrally collected.

Over the state as a whole, the association found, there are at least 4,287 different governmental units, with about a thousand special districts not reporting centrally and not included. In addition to the state government and the fifty-eight county governments, there are 284 incorporated cities, 233 elementary school districts, 266 high school districts, 39 unified school districts, 14 junior college districts, and at least 1,094 special districts.

## DEFENSE "CLINIC" TO BE HELD IN S. F. NEXT WEEK

Designed to spread defense business among small manufacturing plants, a National Defense Production Clinic will be held in the Palace Hotel, San Francisco, on November 24 and 25, it was announced today by Harold D. Weber, general manager of the Oakland Chamber of Commerce and a member of the clinic's executive committee.

An invitation has been sent by Col. F. M. Smith, area manager of the Division of Contract Distribu-

tion of OPM, to all manufacturers in Northern California, who have production facilities suitable for the manufacture of defense products, to attend the clinic.

The clinic, sponsored by the Division of Contract Distribution of OPM and the California Defense Council in cooperation with the Oakland Chamber of Commerce, State Chamber of Commerce and San Francisco Chamber of Commerce, will bring together prime contractors and potential sub-contractors.

"The clinic is designed to acquaint manufacturers with the present and anticipated future needs for various types of defense

products," Weber said, "It also will afford an opportunity for potential prime and sub-contractors to directly contact the officers of the procurement agencies of all branches of the Army and Navy.

"It will permit present prime contractors to display plans and exhibit materials for sub-contracting and provide a convenient means for the contact of potential sub-contractors with present prime contractors."

Harold Hazen of Garden City, Kansas is visiting his aunt, Mrs. Charlotte Gough in Niles at present.

## PLANS MADE FOR COLLECTING NEW FEDERAL CAR TAX

Motorists will pay the new Federal use tax of \$5 on every car to the collector of internal revenue in each district, according to advices received by the California State Automobile Association from AAA headquarters in Washington, D. C.

Registered owners will be notified by mail about the first of the coming year, according to present plans, and a payment of \$2.09 will become due February 1, next. Payment of \$5 for a full year will become due July 1, 1942. Payment of \$2.09, or five-twelfths of \$5 cov-

ering the months of February, March, April, May and June, 1942, places the tax on a fiscal year basis.

Evidence of payment of the tax will be in the form of a revenue sticker which must be displayed on each vehicle, under present plans.

## CARD PARTY

IRVINGTON — The S. P. R. S. I. Council No. 105 announces a public card party will be held this Friday afternoon, beginning at 2 o'clock in the I. O. O. F. hall here with good prizes offered and a moderate admission charged.

## GIVEN 30 DAYS

Justice Jos. A. Silva on Monday sentenced Max Langdorf, 51 of Hayward to spend 30 days in the county jail in lieu of a \$90 fine which he could not pay when he was convicted on a driving while drunk charge. Officers picked him up on Highway 17 near the Masonic Home. His companion, Angelo Matthews also of Hayward has been cited to appear to answer charges of reckless driving and driving after his license had been revoked.
